Clarify some basics

Why is there such an hype about AI?

You

Answer short: Why is there such an hype about AI?

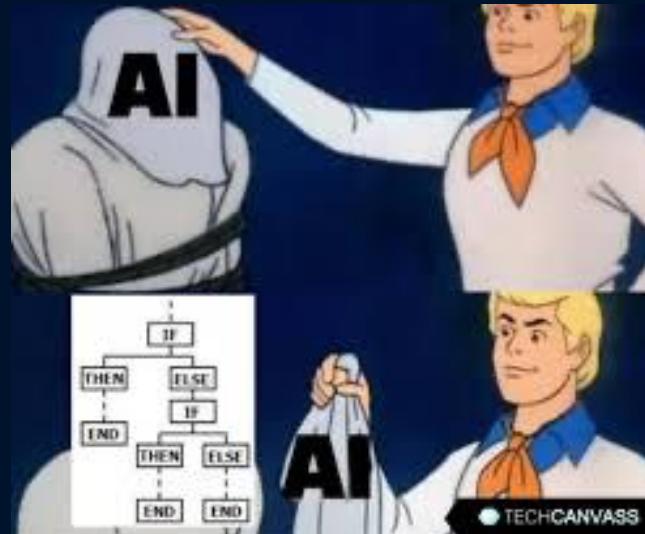

ChatGPT

The hype around AI stems from its transformative potential across various industries, its ability to automate complex tasks, the emergence of big data, breakthroughs in learning algorithms, and the increasing accessibility of AI technology. AI systems can process and analyze data at a scale and speed beyond human capability, leading to innovations in healthcare, finance, transportation, and many other fields. Additionally, AI's role in driving economic growth, improving efficiency, and solving critical global challenges contributes to the excitement surrounding its development.

Why is AI become more and more important

- Explosion of data in the digital age
- Environments become more and more complex
- Predictive capabilities & proactivity
- Extend End-user experience
- You can prioritize complex tasks -> Efficiency Boost

• TECH-CANVASS

What is an co-pilot

- Redefinition how user interact with Internet, PCs and Content
- Will change a lot how we work
- Trigger action or generates content based on questions
- Costs depending on the application it is integrated

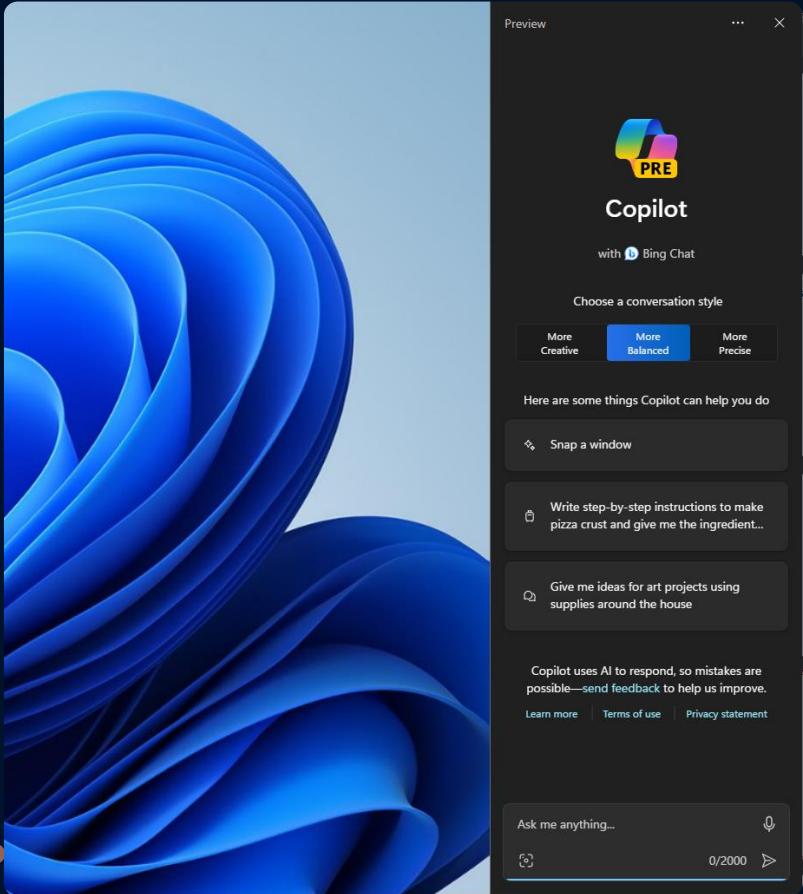

What are the key features of an co-pilot

- Supports you in creating content
- Optimize your workflow
- Human like interaction
- Take action
- High increase of the productivity
- Deep knowledge

Let's jump to the Windows Co-Pilot

What is Windows 11 Co Pilot

- Cortana in smart
- AI powered personal assistant direct integrated in Windows 11
- Powered by Bing
- Using GPT 4, Dall-E 3 and Whisper

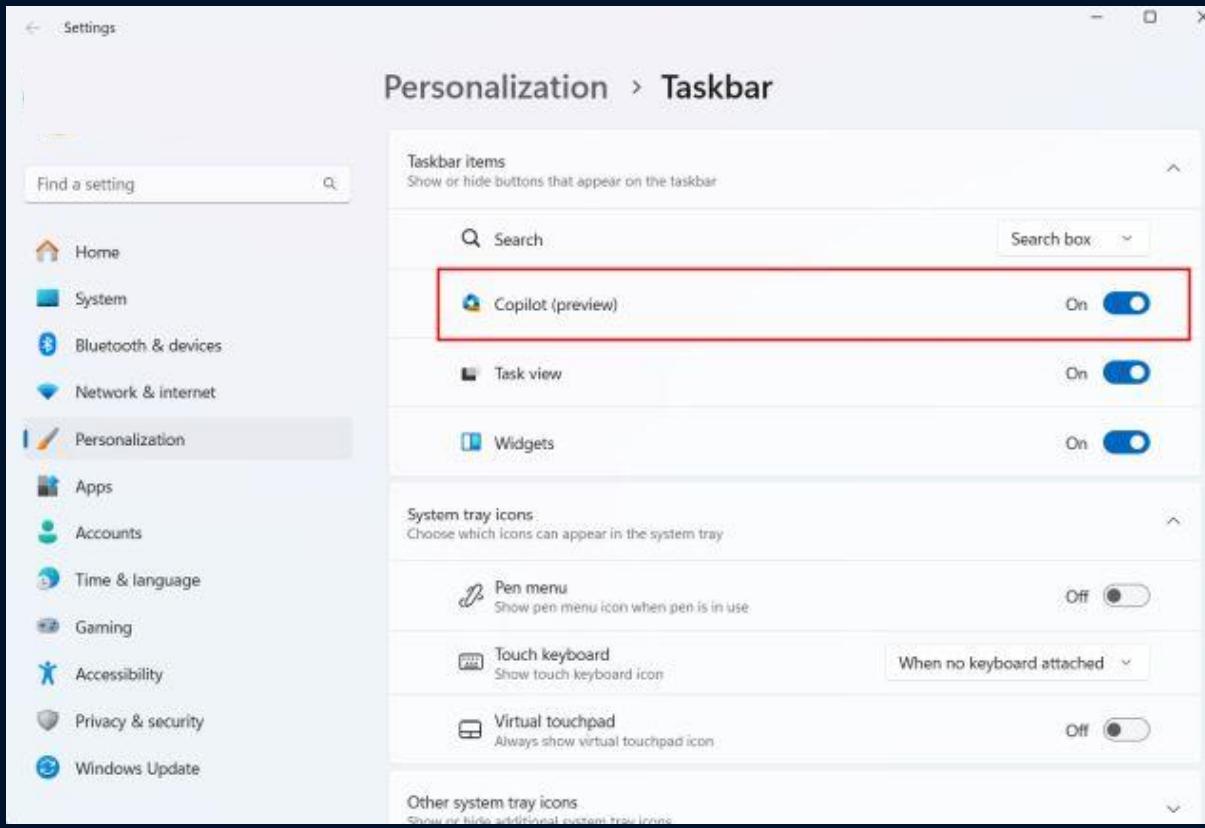

How to start

WIN + C

Or

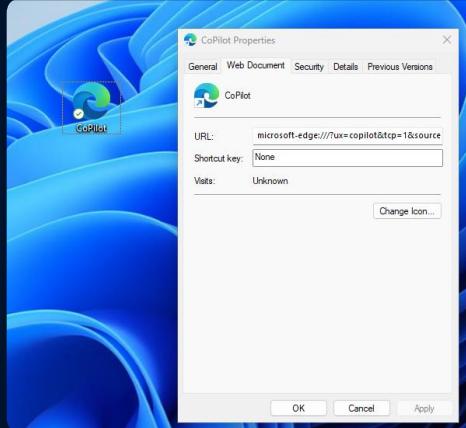

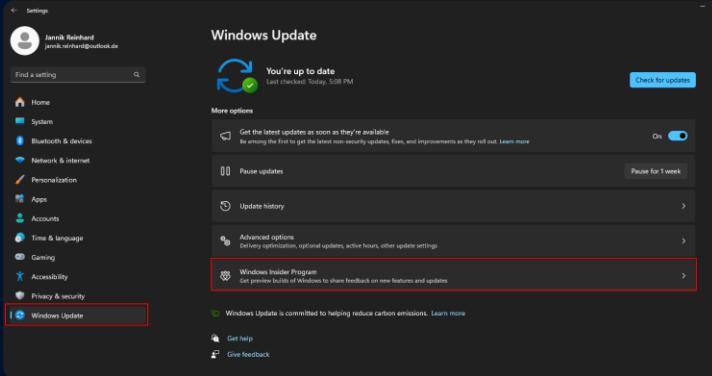

Activate windows 11 co-pilot

How can I use it already?

- No yet available in EU
 - United States, the United Kingdom, and select countries in Asia and South America
- Available on 26th Nov
 - Optional update for 22H2
 - Will be integrated in 23H2
- Join the Insider channel to get the latest version
- Create shortcut
 - `microsoft-edge://?ux=copilot&tcp=1&source=taskbar`

How can I use it already?

- No yet available in EU
 - United States, the United Kingdom, and select countries in Asia and South America
- Available on 26th Nov
 - Optional update for 22H2
 - Will be integrated in 23H2
- Join the Insider channel to get the latest version
- Create shortcut
 - `microsoft-edge://?ux=copilot&tcp=1&source=taskbar`

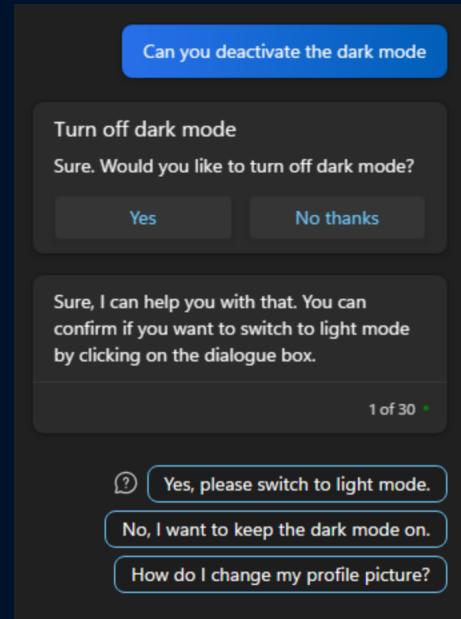

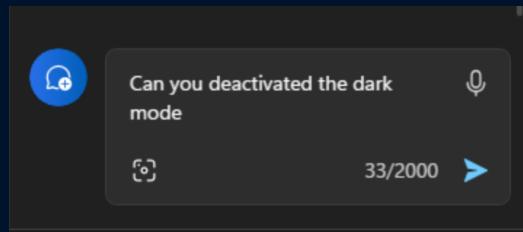

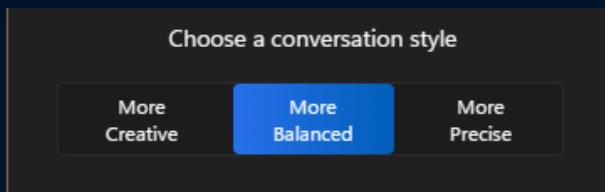

Let's try this

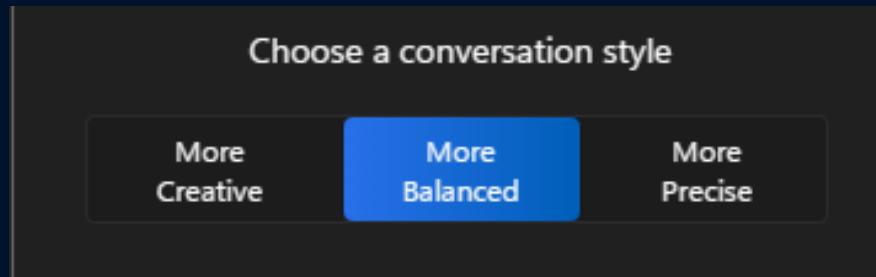

How does it work?

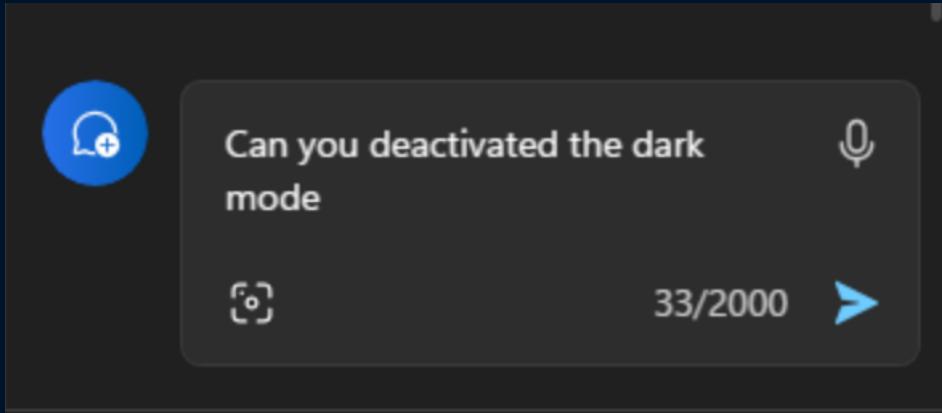

How does it work?

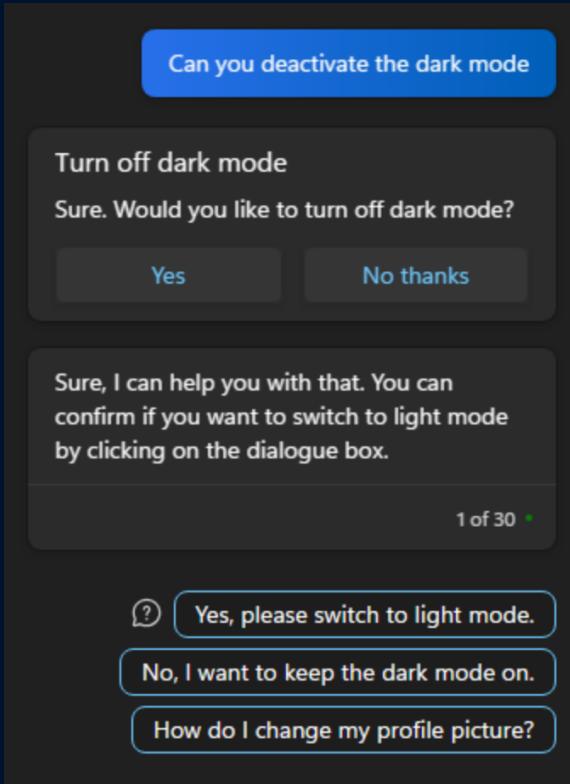

What is the conversation style?

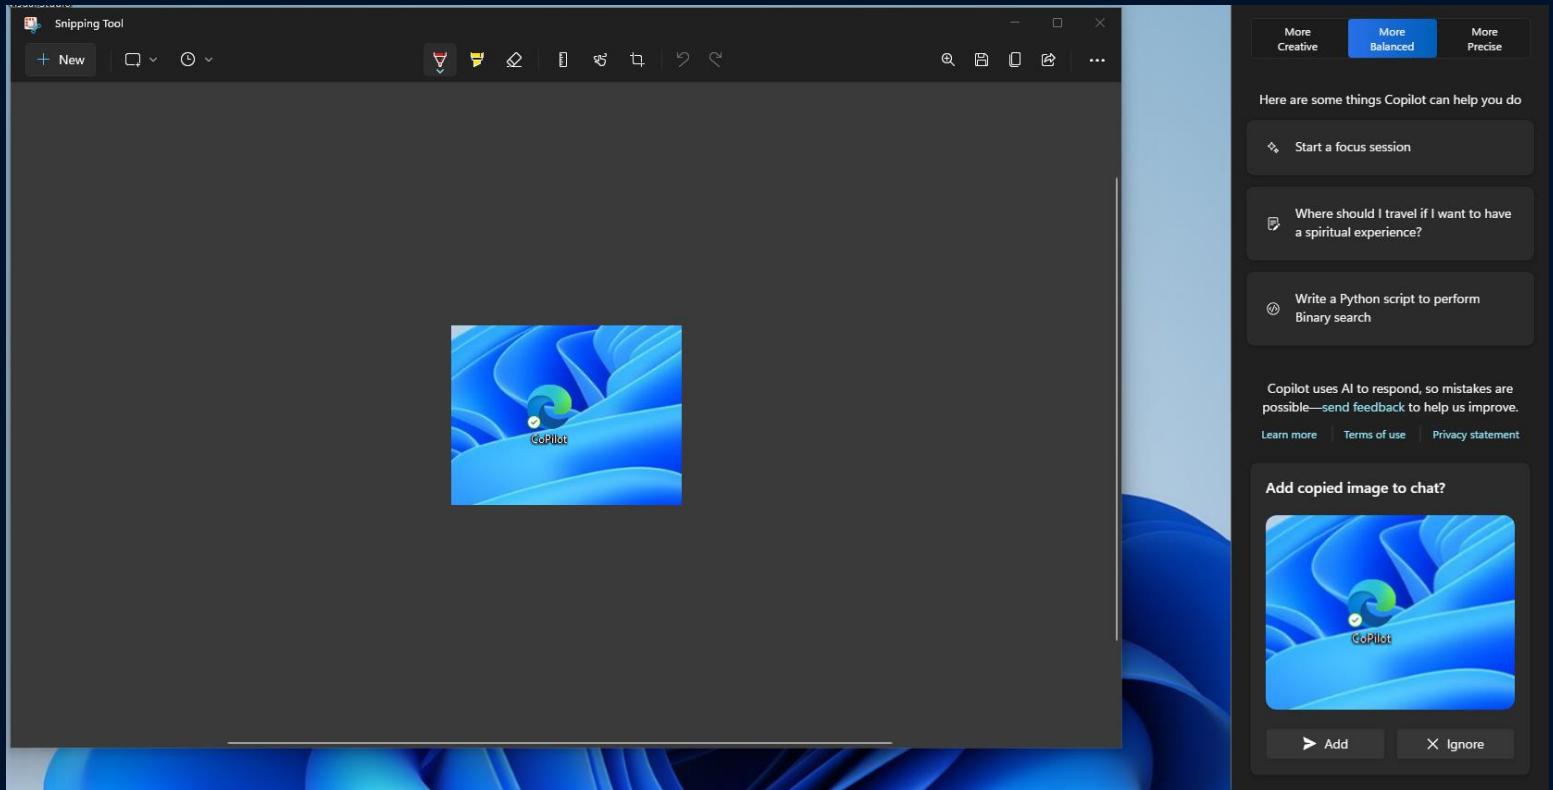

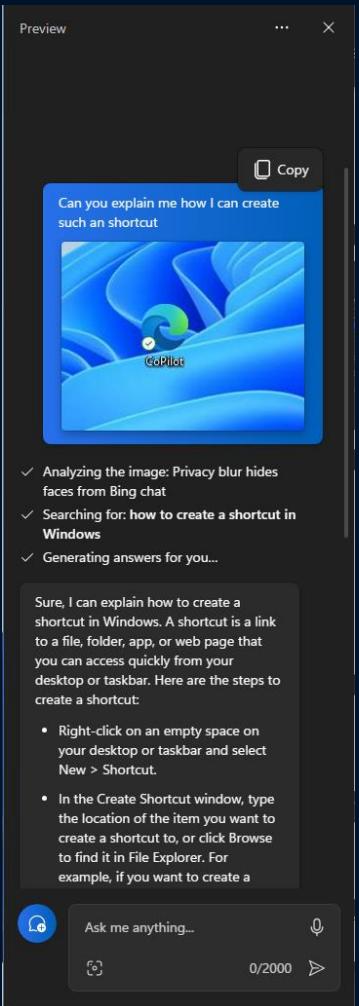

The chat input

Answer

the location of the item you want to create a shortcut to, or click Browse to find it in File Explorer. For example, if you want to create a shortcut to Microsoft Edge, you can type "C:\Program Files (x86)\Microsoft\Edge\Application\msedge.exe" or browse to that folder and select the msedge.exe file.

- Click Next and give your shortcut a name. You can use any name you like, such as "Edge" or "My Browser".
- Click Finish and your shortcut will appear on your desktop or taskbar. You can double-click it to open the item it links to.

I hope this helps. Do you have any other questions?

This image shows a Windows 10 desktop environment. On the left, there are icons for 'Stuff' (a folder with a checkmark), 'Recycle Bin', and a 'CoPilot' application. A large blue rose-shaped wallpaper covers the background. On the right, a 'Preview' window is open, displaying information about a 'Slow Boot Issue'. It suggests running a 'clean reset' to fix the problem. Below this, there's a summary of tips and links to Microsoft and MakeUseOf websites. At the bottom, there's a text input field for asking questions.

The image shows a Windows 10 desktop environment. On the left side, there are pinned icons for 'Stuff' (a folder with a checkmark icon) and 'Recycle Bin'. A large orange arrow points from the 'Recycle Bin' icon towards the center of the screen. In the bottom-left corner of the desktop, there is a small pinned icon for 'CoPilot'. On the right side of the screen, a Microsoft Edge browser window is open. The title bar says 'Preview' and shows a circular profile picture. The main content area of the browser displays a troubleshooting article titled 'Slow Boot Issue' with the following text:

To empty the Recycle Bin on your computer, you can follow these steps:

- Right-click on the Recycle Bin icon on your desktop.
 - Select "Empty Recycle Bin" from the menu that appears.
 - Confirm that you want to permanently delete the files in the Recycle Bin by clicking "Yes".
 - Wait for the process to complete and the Recycle Bin icon to change to an empty trash can icon.

The image shows a screenshot of the Microsoft 365 interface on a Windows 10 desktop. The desktop background is a blue and white abstract design. A Microsoft Edge browser window is open, displaying the Microsoft 365 landing page. The page has a dark theme with a central banner that says "Welcome to Microsoft 365". Below the banner, there's a "Create New" section with four options: "Document Word", "Presentation PowerPoint", "Workbook Excel", and "Form Forms". To the left of the main content area, there's a vertical sidebar with icons for "Home", "Create", "My Content", "Apps", "Word", "Excel", and an ellipsis. At the top of the Microsoft Edge window, there's a "Stuff" pinned item icon. On the right side of the Microsoft Edge window, a Microsoft Bot Framework chat window is open. The chat window has a message from "Opening Microsoft 365" asking "Can you open outlook for me". It also contains a message from the bot suggesting to open the Microsoft 365 app. The bottom right corner of the Microsoft Edge window shows the Edge logo and some stats: "Ask me anything..." with a speech bubble icon, "0", "0/2000", and a right-pointing arrow.
